DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 9/27/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 10/500078 has been reviewed and is NOT accepted.
2. The assignee has not established its ownership interest in the application, in order to support the terminal disclaimer. There is no submission in the record establishing the ownership interest by either (a) providing documentary evidence of a chain of title from the original inventor(s) to the assignee and a statement affirming that the documentary evidence of the chain of title from the original owner to the assignee was, or concurrently is being, submitted for recordation pursuant to 37 CFR 3.11, or (b) specifying (by reel and frame number) where such documentary evidence is recorded in the Office (37 CFR 3.73(b)).

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Art Unit: 3644

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 20, 27 – 29, 40, 47 – 49, 60, and 67 – 69 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 20 - 79 of copending Application No. 10/500078 ('078).

Although the conflicting claims are not identical, they are not patentably distinct from each other because:

5. Claim 20 and dependent claim 27 are very similar and encompass the same scope as conflicting claims 20 and dependent claim 28 of '078 where the phraseology of dependent claims varies.

6. Claims 28 and 29 are the same as conflicting claims 21 and 22 as they share dependencies.

7. Claim 40 and dependent claim 47 are very similar and encompass the same scope as conflicting claim 40 and dependent claim 48 of '078.

8. Claims 48 and 49 are the same as conflicting claims 41 and 42 as they share dependencies.

9. Claim 60 and dependent claim 67 are very similar and encompass the same scope as conflicting claim 60 and dependent claim 68 of '078.

10. Claims 68 and 69 are the same as conflicting claims 61 and 62 as they share dependencies.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Allowable Subject Matter

11. Claims 21 – 26, 30 – 39, 41 – 46, 50 – 59, 61 – 66, and 70 – 79 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
